

Bella Turf

THE WORLD'S FINEST ARTIFICIAL GRASS

LANDSCAPES - PETS - PLAYGROUNDS - SPORTS

Lets face it. Yard work will always be yard work, unless you decide to make Bella Turf a reality! Trading out your natural grass for Bella Turf artificial grass will not only gain hours of your free time back to enjoy life, it will accent your home, create a clean, fun, usable space for your family and friends to enjoy for years, or to simply allow you to spend more time in your gardens. With endless applications, whether it is back or front yards, rooftops, indoors or even walls, Bella Turf will continuously look lush and green.

Bella Turf is Canadian owned and operated and strives to innovate industry leading products designed specifically for the Canadian markets. Our team spans Canada wide and we all share a mutual appreciation and respect for nature. Not only do our products look real, they look like they are meant to be here.

BELLA TURF, THE FUTURE OF GREEN

Bella Turf is a Canadian company that has made it simple and easy to buy and install artificial grass. Our products are versatile, durable, and extremely simple to install. Bella Turf strives to bring you the finest artificial grass that the world has to offer. With rigorous testing and inspection along with meeting all safety standard certifications, Bella Turf has designed a product that is safe, warranted, and at the top of its class.

Made with today's most advanced yarn technologies

When it comes to the performance of our grass, the shape of the yarn is a key factor when selecting a product to best suit your needs. Shaped yarns provide a beautiful aesthetic with unmatched performance. Bella Turf is proud to offer a WaveBlade, U-Shape, S-Shape, Diamond and Twist blade. These products keep a cooler surface temperature with less shine, withstand more foot traffic, and are proven to be significantly stronger than flat yarn grass. A flat yarn is used mainly for aesthetics or very low traffic areas. Each shape offers a unique look and serves a different purpose.

LANDSCAPE SYSTEMS

Our grass gives you the lawn you deserve without all of the chores. Upgrade the quality of your outdoor living and enjoy a usable green space all year long. The look will draw you in and the performance will keep you smiling. A Bella Turf installation will make your time more enjoyable and increase the resale value of your home. Invest in your family, your home and your happiness with Bella Turf Artificial Grass.

Bella Turf is ideal for areas where natural grass is difficult to grow, or where upkeep is impractical due to water restrictions or other environmental factors. Its durability makes it the sensible choice for high-traffic areas and outdoor living spaces.

PLAYGROUND SYSTEMS

Bella Turf playground systems are a great alternative to sand, bark or natural grass. Our grass offers a premium surface for the myriad of activities to be played outdoors. Our products are designed to endure the harshest environments and provide a safe play area day after day. Its many uses range from being installed beneath playground equipment to providing play space at daycare facilities. Bella Turf is adaptable for all applications and can meet the “Certified Fall Rating” for up to 10+ feet when complemented by select Turf Cloud shock pad options.

Making the switch to Bella Turf eliminates the use of harmful pesticides, fertilizers, herbicides and fungicides. It requires no mowing, fertilizing, weeding, reseeding or watering, making Bella Turf the sensible choice for high-traffic play areas.

TURF CLOUD
Foam Underlay

PET SYSTEMS

Our Pet Systems feature Paw Pro; a pet specific grass with an ultra permeable, anti-bacterial acrylic backing. When infilled with PureZEO you'll reduce unwanted odors caused by your pets and create a surface for year round outdoor play. Our products will not fade or stain, and are completely non-absorbent. Find happiness for you and your pets with a Pet System from Bella Turf.

*100% naturally
sourced zeolite.*

With Bella Turf in place of natural grass, not only will your yard be cleaner for your pets, but your pets will also be cleaner for your house. Mud and debris will no longer be tracked in from outside no matter what the weather is like. Bella Turf products are resistant to even the biggest, toughest dogs, and there will be no more bare or worn patches from pets playing. Bella Turf is uninhabitable for ticks, fleas and other insects so pets are kept safe.

PUTTING GREENS

A 3-foot putt and a 300-yard drive each count as one stroke. Do you practice both equally? Bella Turf Putting Greens are as close to a real “Country Club” green as you can find, and will transform your yard into a fun place for all to enjoy. Now friends & family can practice putting and chipping in your backyard, basement or wherever you choose. Golf during the sun, rain, or even after dark. Challenge friends to a friendly competition and teach your kids golf’s fundamentals.

Bella Turf can create the perfect putting green, whether it is in a townhouse complex, recreational facility or right in your own backyard. Turn your landscape into an enjoyable, usable space with Bella Turf 's state of the art putting greens.

VERSATILITY MEETS CREATIVITY

Bella Turf is adaptable to just about any application imaginable, large or small. Whether it is for indoor or outdoor, public or private, decorative or functional, we have a product for you. Add character to your deck or patio, keep your pool free of grass clippings, create an “always playable” sports surface, liven up your workspace or even take a piece with you camping. Imagine the possibilities.

SPECIALTY PRODUCTS

With technology advancing year after year, the capabilities of artificial grass are nearly limitless. We'd like to introduce you Bella Turf's newly added specialty products. Featuring long-lasting blades designed to look and play more like natural grass, various pile height options and available in a wide variety of colours, Bella Turf is here to help you create your very own field of dreams.

Short Pile Sports Turf < 1"

For products under one inch in length, Bella Turf offers a full line of products with several customization options. Applications may include, but are not limited to:

Training Facilities • Bocce Courts • Tennis Courts • Playgrounds • Gyms

Long Pile Sports Turf > 1"

For products over one inch in length, Bella Turf offers a full line of products with several customization options. Applications may include, but are not limited to:

Soccer Fields • Baseball Fields • Playgrounds • Multi-use Fields

Shock Pads

We offer shock pads by the roll for added safety and more comfort under foot. Thickness options available to achieve fall ratings for up to 10 feet. Shock Pads also increase the lifespan of the grass blades.

Sand Filled Synthetic Putting Greens

For those serious about the game of golf, Bella Turf offers a premium sand filled golf green that is great for holding shots from up to 100 yards as well as short chip shots.

Custom Logos, Lines & Numbers

Bella Turf can turn just about any logo into a custom made artificial grass logo for your project. Make a big impact with your team or brand logo designed right into your artificial grass surface. Logos, shapes, lines, letters and numbers can all be created in any colour. Ideal for sports fields, gyms, commercial applications and playgrounds.

Coloured Turf

Bella Turf specialty products are available in many colour options. From multiple shades of green to red, blue, black, white, yellow, purple, orange and more. Great for themed areas and keeping up with brand consistency whether it be for your team or business. Available colour options:

For more information on having a custom sports system built, please visit bellaturf.ca or contact our office. 1-888-970-8771 or info@bellaturf.ca. Your field of dreams awaits.

ULTIMATE SERIES

The Bella Turf Ultimate Series features industry leading products and grass technologies that remain at the forefront of innovation today. Not all grass is created equal. Our grass goes through rigorous testing to ensure that our product quality remains the benchmark in today's artificial grass market. Designed in Canada for Canadian landscapes, these selected grass products are certain to take your property to the next level of outdoor luxury. From the highest certified grass (FIFA) to the softest grass blades on the market, our Ultimate Series is at the top of the class.

Seam Spikes

Galvanized Spiral Nails

Odor Neutralizer

32oz - 1,000 to 1,500 sq ft

Golf Flag Sets

Cups / Pins / Flags

6" Aluminum Golf Cups

INFILL

Bella Turf along with all artificial grass requires an infill in order to create a stable base to support the blades upright and to retain its resilience against the years of abuse. If the grass is not infilled you are shortening its life span, as the wear will be on the base of the product and its entire blade. Infill gives “life” and longevity to your artificial grass surface.

- 100% Natural Canadian Mined Zeolite
- Absorbs 80% of its weight in water and slowly releases it to cool the surface
- Reduces odours by adsorbing ammonia from pet urine
- Will not break down or decompose in liquids
- A safe alternative to sand infills
- Ideal for all landscape artificial grass applications

Envirofill® gets its strength and high-performance from its unique, rounded quartz core grains. This quality gives Envirofill a non-compacting, non-absorbing surface unlike any other infill. Whether for sports or for play, Envirofill will provide a soft, cushion-like surface. Envirofill has proprietary, Microban® antimicrobial technology.

Landscape Silica Sand makes for a great all purpose artificial grass infill when aesthetics are the only concern. It will weigh your grass down and keep the blades standing upright. The finer Putting Green Silica Sand is used in putting greens to control the speed of the ball roll.

"PureZEO is the ONLY infill option for kids and pets. It's cleaner, safer, and even keeps my yard cooler."

- Larry Stanton - Coquitlam, BC

Water Friendly

- Saves millions of gallons
- Drains like natural grass
- Reduces maintenance costs

Earth Friendly

- 100% Recyclable content
- Reduces fuel consumption
- Reduces carbon emissions

Pet Friendly

- Safe for pets of all types
- Keeps pets clean and healthy
- Controls insects, rodents & pests
